

ACM CCS 2009 Call For Posters & Demos

ACM Computer and Communications Security (CCS) 2009

Nov 9–13, 2009

Chicago, IL, USA

ACM CCS 2009 will include poster/demonstration sessions that will provide a forum to present and discuss: works in progress, industry demonstrations of new applications and techniques, research test beds and demonstrations, recent research and implementation results, upcoming research challenges, future directions, and novel approaches in the field of computer and communications security. One of the key goals of this conference is to foster collaboration between industry and academia. Hence, **participation of researchers and developers from industry and posters/demonstrations reporting joint work between industry and academia are especially encouraged.**

Submissions should be in the form of a proposal describing the main contributions of the poster/demo and the merits of the proposed ideas. If available, preliminary results can also be included. Proposals will be evaluated mainly based on their potential to stimulate interesting discussions and exchange of ideas, and to promote collaborations. Accepted authors of posters/demos will have a space in the poster/demo session room to display their posters or exhibit their demos and describe their work in discussions with interested attendees.

Please submit your proposal (PDF format) through the website:

<http://www.easychair.org/conferences/?conf=ccspd09>

Submissions should not be more than three pages in length. Demonstration submissions should describe the requirements for space and any specific equipment that will be necessary. Submissions must contain the authors' names, affiliations, and contact information and the designated corresponding author.

Important Dates:

Submission of proposals: **Aug 14, 2009.**

Acceptance notification: **Sept 18, 2009.**

In order to include the poster/demo in the conference, at least one of the presenters must register for the conference.
