

ACM CCS 2010 - CALL FOR PAPERS

OCT 4-8, 2010

HYATT REGENCY CHICAGO, IL, USA

<http://sigsac.org/ccs/CCS2010>

The annual ACM Computer and Communications Security Conference is a leading international forum for information security researchers, practitioners, developers, and users to explore cutting-edge ideas and results, and to exchange techniques, tools, and experiences. The conference seeks submissions from academia, government, and industry presenting novel research on all practical and theoretical aspects of computer and communications security, as well as case studies and implementation experiences. Papers should have relevance to the construction, evaluation, application, or operation of secure systems. Theoretical papers must make a convincing argument for the practical significance of the results. All topic areas related to computer and communications security are of interest and in scope. Accepted paper will be published by ACM Press in the conference proceedings. Outstanding papers will be invited for possible publication in a special issue of the ACM Transactions on Information and System Security.

Paper Submission Process

Submissions must be made by the deadline of April 17, 2010, through the website: <http://www.easychair.org/conferences/?conf=ccs2010> Submitted papers must not substantially overlap papers that have been published or that are simultaneously submitted to a journal, conference or workshop. Simultaneous submission of the same work is not allowed. Authors of accepted papers must guarantee that their papers will be presented at the conference.

Paper Format

Submissions must be at most ten pages in double-column ACM format (note: pages must be numbered) excluding the bibliography and well-marked appendices, and at most 12 pages overall. Submissions must NOT be anonymized. Only PDF or Postscript files will be accepted. Submissions may also be accompanied by a link to a short (at most 3 minutes) video or slide presentation. For more details on the supplemental material, see the CCS 2010 website. Submissions not meeting these guidelines risk rejection without consideration of their merits.

Tutorial Submissions

Proposals for long (3-hour) and short (1.5-hour) tutorials on research topics of current and emerging interest should be submitted electronically to the tutorials chair by May 24, 2010. The guidelines for tutorial proposals can be found on the website.

Important Dates

- Paper submission due: Saturday, **April 17**, 2010
- Acceptance notification: Monday, June 21, 2010
