ACM WiSec has been broadening its scope and seeks to present high quality research papers exploring security and privacy aspects of wireless communications, mobile networks, and their applications. Beyond the traditional staples of physical, link, and network layer security, we also welcome papers focusing on the security and privacy of mobile software platforms, usable security and privacy, biometrics and the increasingly diverse range of mobile or wireless applications. The conference welcomes both theoretical as well as systems contributions.

## Topics of interest include:

- Mobile malware and platform security
- Security & Privacy for Smart Devices (e.g., Smartphones)
- Wireless and mobile privacy and anonymity
- Secure localization and location privacy
- Cellular network fraud and security
- Jamming attacks and defenses
- Key extraction, agreement, or distribution
- Theoretical foundations, cryptographic primitives, and formal methods
- NFC and smart payment applications
- Security and privacy for mobile sensing systems
- Wireless or mobile security and privacy in health, automotive, avionics, or smart grid applications
- Self-tracking/Quantified Self Security and Privacy
- Physical Tracking Security and Privacy
- Usable Mobile Security and Privacy
- Economics of Mobile Security and Privacy
- Bring Your Own Device (BYOD) Security

## Important Dates

Abstract submission: **March 3rd 2014**

Paper submission: **March 10th 2014**

Notification to authors: **May 7th 2014**

Poster and demo proposal submission: **May 14th 2014**

Notification to poster presenters: **May 21st 2014**

Camera-ready version: **May 28th 2014**

## Organising Committee

### General Chairs:

Andrew Martin, Oxford University, UK

Ivan Martinovic, Oxford University, UK

### Program Chairs:

Claude Castelluccia, INRIA, France;

Patrick Traynor, Georgia Institute of Technology, USA

### Publicity Chairs:

Kasper Rasmussen, University of California, Irvine, USA

Mathieu Cunche, INRIA, France

### Publication Chair:

Gergely Acs, INRIA, France

### Poster/Demo Chair:

Aurélien Francillon, Eurecom, France

### Web Chair:

Justin King-Lacroix, University of Oxford, UK

## Steering Committee

Gene Tsudik, University of California, Irvine, USA. (chair)

N. Asokan, University of Helsinki, Finland

Srdjan Capkun, ETH Zurich, Switzerland

Claude Castelluccia, INRIA, France

Douglas Maughan, Department of Homeland Security, USA

Ahmad-Reza Sadeghi, TU Darmstadt, Germany
