

ACM CCS 2018 Call for Workshops

25th ACM Conference on Computer and Communications Security

15 – 19 October 2018

Toronto, Canada

Workshops Proposals are solicited for workshops to be held in conjunction with ACM CCS 2018. Each workshop provides a forum to address a specific topic at the forefront of security research.

A workshop associated with CCS must be one full day in length. Proceedings of all such workshops will be available to the workshop attendees. Each workshop will also have online proceedings through the ACM Digital Library, with a separate ISBN. Submissions of workshop proposals must reach the workshop chairs: ccs2018workshops@gmail.com by April 8, 2018.

Workshop Proposal Submission

For new workshops, proposals should include:

1. Workshop title
2. A draft 'Call for Papers' articulating the scope and topics covered by the workshop
3. A brief summary and justification for the workshop, including anticipated benefits to the ACM CCS community.
4. Proposed format and agenda
5. Expected number of submissions and acceptance rate
6. Expected number of attendees
7. Program chair(s), and, if available, tentative program committee
8. A one-paragraph biographical sketch for each organizer, describing relevant qualifications, including research and conference/workshop organizing experience

For previously-held workshops, in addition to the above, proposals must provide the following information, for the most recent incarnation of the workshop:

1. Number of submissions
2. Number of accepted papers
3. Number of registered attendees

Please submit workshop proposals by email to the ACM CCS Workshop Chairs at ccs2018workshops@gmail.com. All workshop proposals will be reviewed by the CCS Steering Committee.

Proposal Evaluation Criteria

- The workshop is within the scope of computer and communications security and concerns a coherent and important technical topic of high interest in the community.
- Its novelty with respect to other forums, especially with respect to other CCS workshops.
- Its likely impact on the target community, including likely high participation.
- One of the best ways to show likely interest is to have a strong set of researchers who have agreed to serve on the PC.

Important Dates

Submission Deadline for Proposals	April 8, 2018
Decisions communicated	April 15, 2018
CfP and Website for each Workshop	April 30, 2018
Suggested Submission Deadline for Workshops	July 8, 2018
Suggested Workshop Papers Notification	July 30, 2018
Submission of Camera Ready Papers to Publisher (hard deadline)	August 19, 2018
