

ACM CCS 2018

15-19 October 2018, Toronto, Canada

The ACM Conference on Computer and Communications Security (CCS) is the flagship annual conference of the Special Interest Group on Security, Audit and Control (SIGSAC) of the Association for Computing Machinery (ACM). The conference brings together information security researchers, practitioners, developers, and users from all over the world to explore cutting edge ideas and results. It provides an environment to conduct intellectual discussions. From its inception, CCS has established itself as a high-standard research conference in its area.

Sponsorship and Benefits

- The ACM CCS conference presents an excellent opportunity for you to have your company's brand and message in front of the world's leading security researchers, professionals and potential future employees.
- We expect that many partners from industry and government agencies will come together to support ACM CCS 2018 and many of those attending will be in a position to include your company's products and services in the next generation security solutions.
- The Organizing Committee of ACM CCS 2018 invites your company to join other industry leaders to be a patron of the 25th Annual Conference on Computer and Communications Security.
- This support will be instrumental in enhancing the quality of the conference and will also aid registration and travel arrangements for highly talented students who otherwise may not be able to participate in the conference.
- In addition, your employees can benefit from the specialized tutorials and workshops.
